**Other Comments Regarding Substance Use** (Include SU by other family members/significant others, SU related legal problems, and stage of treatment information): Mary mentioned that she has mixed feelings when she thinks about her tobacco use. She reported that she "knows she should quit" so that she can "be a better example for my patients ... and my children." She states that she has had unsuccessful quit attempts in the past which discourage her from trying again. Mary stated that she does not smoke in front of her children, in their home, or in their car, as she does not want them exposed to secondhand smoke.
