ESSENTIALS FOR HEALTH REFORM: Using Networks to Implement and Improve EHRs and other HIT
Behavioral Health providers are being challenged to adopt health information technology with very limited resources. There is a need to prepare for increased numbers of patients receiving health insurance benefits, requirements for electronic billing, data exchange among treating providers and an ever increasing need to collect and use health information to improve care.

These intense one day seminars will provide attendees with the necessary information to move forward in adopting, acquiring and implementing electronic health records and other health information technology. Presenters will review the various stages of implementation from initial planning and assessment through advanced topics such as data warehousing. There will be a focus on utilizing networks of care to build on economies of scale. Participants will leave with a thorough understanding of where they are in the process, and a plan for next steps in their health information technology implementation efforts.

These seminars are a collaborative work of NIATx, SAAS and The National Council supported by SAMHSA.
Topics include:

- Overview of the CMS Rule on Medicare and Medicaid Incentive Payments
- Practice Management Systems vs EHRs
- Benefits & Economies of Scale when working with a Network
- HIT Planning and Assessment Process
- HIT Workflow Redesign
- Due Diligence and Vendor Negotiations
- EHR Selection and Implementation
- Disaster Recovery and Business Continuity Planning
- Data Warehousing
- Use of Telemedicine
- Health Information Exchange and Behavioral Health
Due Diligence & Vendor Negotiations
Session Description

This presentation will cover the basics of the Due Diligence and Vendor Negotiation Process, and builds upon the experience of Health Center Controlled Networks who have been developing, implementing, hosting, and supporting safety net providers on advanced Health Information Technology systems for more than a decade.

SELECTION PROCESS OVERVIEW

- Process Analysis
- Request for Information
- Self-Education
- Dog n’ Pony Show
- Request for Proposal
- Scoring Assessment
- In-depth / Situational Vendor Presentations
- Site Visits
- Vendor Selection
- Contract Negotiations
MINI-DEMOS / EDUCATION

- Vendors perform mini-demos
- Schedule “Lunch and Learn” sessions
- Deliver via Webex type services
- Education component – not final selection
- Seek out peers, technical assistance
KLAS AND OTHERS

- Investigate their methods
  - Statistically sound?
  - Interactive competition?
- How are customers found?
- Judges relationships to vendors?
- Vendors members / sponsors of ranking organization?
- Is organization a stakeholder?
NARROWING THE FIELD

- Thoroughly read the RFIs
- The more eyes the better
- Compare and contrast
- Look past the gloss
- Evaluate the quality of responses
- Listen to colleagues
- Reflect upon mini-demo sessions
SELECTION PROCESS OVERVIEW

- Request for Information
- Self-Education
- Dog n’ Pony Show
- Request for Proposal
- Scoring Assessment
- In-depth / Situational Vendor Presentations
- Site Visits
- Vendor Selection
- Contract Negotiations
DOG N’ PONY SHOW

- Top choices invited
- One day for each
- Primary attendees – providers, nursing staff
- Use patient visit scenarios
- Control the demo
USING PATIENT VISIT SCENARIOS

- At least 6 sample visit scenarios
- Cover the spectrum of service types
- Provide 3-4 days prior to demo
- Establish moderator / interaction
- Use a Scorecard
THE DEMO SCORECARD

- Limit scope
- Cover scenarios and only key areas
- All providers participate in scoring
- Weight each area or item
- Allow free text comments
SELECTION PROCESS OVERVIEW

- Selection Committee

REQUEST FOR PROPOSAL

- Only top vendors
- Must be very controlled
  - Give single point of contact
  - Dictate format for responses
  - Adhere to deadline
- Document vendor questions and replies
  - To share or not to share with all?
REQUEST FOR PROPOSAL

- Provide short- and long-term projections
- Technical infrastructure
- Current in-house staffing and support plans
- Leadership
- Contracting entity
CRAFTING THE RFP PACKAGE

Vendor Information:

- Request references that will provide satisfactory as well as dissatisfied responses
- Commitment to your local market?
- Are references or show sites paid?
- Project management samples
CRAFTING THE RFP PACKAGE

Functional Requirements:

- Very Important RFP Component!
- Expand with details
- Designating “required” vs “optional” requirements
- Attaches to the contract
- Use HRSA guidelines as starting point
- Clinicians must provide input

THE SITE VISIT

- Compensated show site?
- The team – (Minimal) Provider, nursing, IT
- The team – (Optimal) + Executive leadership, operations, finance, billing
- “To-See-and-Ask List”
- Ask for references
SELECTION PROCESS OVERVIEW

- Selection Committee
- Request for Information
- Self-Education
- Dog n’ Pony Show
- Request for Proposal
- Scoring Assessment
- In-depth / Situational Vendor Presentations
- Site Visits
- **Vendor Selection**
- Contract Negotiations
INVESTMENT / RECURRING COSTS

- What is included in the license fee?
  - Formulary subscription / updates?
  - Drug interaction subscription / updates?
  - Database licensing?
  - Patient education materials?
- Perform five year investment / cost analysis
LICENSE FEES

- Must understand licensing
  - Per Physician
  - Per Provider
  - Per Named User
  - Per Concurrent User
- Thoroughly understand vendor definitions
- Thoroughly understand how they audit license compliance
SUPPORT STRUCTURE

- Hours of operations
- Methods of support
- User community
  - Local
  - Regional
  - National
- Special Interest Groups
- After hours support access / costs
- Service Level Agreements (SLAs)
CORPORATE COMPARISONS

- Positioned as a buyer
  - Acquisitions build benefit to customers or dilute resources?
- Positioned for a buy
  - Future less known – new buyer impact?
- History of reorganizations?
- History of management changes?
CONTRACT COMPARISONS

- To Vendors:
  “Put your money where your mouth is”
- Get it in writing
- Comparison tracking
- What’s not included

If they won’t put in writing what they verbalize, walk away!

License:

“Subject to the provisions of this Agreement as well as the payment of all applicable license fees for the term of this license, Vendor grants to Customer and Customer accepts a limited, personal, nonexclusive, nontransferable, nonassignable Object Code license to use the software for Customer’s internal use only.”

The above is a sample of common “licensing” language that might be found in an EHR agreement. It is important that you understand the scope and application of the license.

Messer, Caparello & Self, P.A.
Tallahassee, Florida
CONTRACT TERMS

Warranties:

- Either owns or is authorized to license software
- Conformance to product specifications
- Free from material defects
- Services and installation performed in accordance to professional standards
- Operation of the software
- Product updates to comply with changes in the law
- Integrity of data
- Length of warranty period
- Third party warranties
- Pending litigation
- Software Escrow
- Identify specific Vendor staff who will be on site
- Others

Messer, Caparello & Self, P.A.
Tallahassee, Florida
CONTRACT TERMS: LIMITATION OF LIABILITY ISSUES

- **Licensor – Seeks to Limit all forms of Liability**
  - Actual direct damages
  - Liable only to customer, not clients of customer
  - Limit the time in which claims may be brought
  - Limit the amount for which it might be held liable
  - Others

- **Licensee – Seeks to expand basis of liability**
  - Carve out specific certain types of claims
  - Expand liability for injury to customers
  - Expand time for claims
  - Expand amount for which Licensor might be held liable

NEGOTIATE WITH BOTH VENDORS

- A lot of work! Saves time later.
- Negotiator must be armed with knowledge
- Conduct with integrity
- Document, document, document
- Thoroughly reread every version of contract sent
- Involve attorney before signing
DOG N’ PONY  #2?

- Don’t be afraid to require
- Use to clarify functional differences
- Limit participants
- Use that scorecard
- Document key differences
- Have vendor append functional requirements document

OCHIN PRODUCTS AND SERVICES

- **Practice Management**
  - Scanning solutions
  - FQHC customizations
  - Special and community Library Reports
  - Flexible build and configuration
  - Automated patient notifications
  - Revenue cycle management

- **Electronic Health Record**
  - Integrated community health record - medical, dental, behavioral health, school-based clinics
  - E-prescribing
  - Decision support tools
  - Case/care management tools
  - Integrated lab interfaces
  - Advanced role based security
  - Voice recognition
  - Reporting and benchmarking tools
  - Document management
  - Continuity of Care Record (CCD)
  - Patient Personal Health Record (PHR)

- **Implementation, Training and Products**
  - Project management
  - Information systems implementation
  - Network design
  - HIT integration & interoperability
  - Billing and revenue cycle management
  - Staff PM/EHR training
  - Web-based training modules

- **Support**
  - Project Management
  - 24/7 service desk
  - Advisory and consulting services
  - Meaningful Use reporting tools
  - Clinical reporting tools
  - Specialty build for grant
  - Vendor escalation

- **Practice Based Research Network**
  - Safety Net clinical research & clinical collaboration opportunities

Core Health Information Technology Offerings

- **Practice Management System** *(including Practice Analytics)*
- **Electronic Health Records** *(240,000+ Patient Records)*
  - ePrescribe
  - Lab Orders / Results
  - Specialty Provider Referrals
  - Quality Reporting
- **Electronic Oral Health Records** *(including Digital Imaging)*

“Meaningful” Users of EHR Since 2005

**Professional Services**

- **Project Management / Implementation Support**
  - Leadership and task level monitoring
  - End to end project / system design
  - Workflow / Process Consideration
  - On-site Go-Live Choreography
- **Training**
  - Modalities matched to provider / end user needs, including classroom, coaching, and web-based tools
  - Competency exams
- **Report Writing / Administration**
  - Custom QA/QI, Peer Review, and Operations reporting
  - Meaningful Use – Workflows, Provider-level detail, and gap analysis
- **EHR Development / Enhancement**
  - Clinical Committee directed
  - Interface management to support HIE and other functionality to the provider desktop
- **Technical Assistance & Support**
  - Help Desk processes more than 7,000 requests annually; fewer than 5% escalated to vendors
  - 24x7 System Availability
- **Tier 1 Data Center Partner**
  - Server Redundancy
  - Privacy / Security Monitoring & Management
  - 24x7 Server Monitoring / Network Administration
